Definitions	
In Construction	Tender has been awarded, and works commenced. If a tender is a design and construct, the works include the design phase.
Proposed	Project could still be subject to consultation and/or design approvals, funding or other requirements. If at tender, it has not yet been awarded. Projects may have funding.
Spotlight	An overview style update of key strategic projects.
Quarter 3 2023	This edition reflects construction status as at 30 September 2023.
Value of Projects	Known projects valued at \$500 000 or greater are included in Construction Snapshot. Values are generally GST inclusive, however some public announcements may be GST exclusive.
Types of Projects	Most types of construction projects are included (multiple dwellings residential, commercial, community, civil etc.) over the value of \$500 000. Maintenance period contracts and single private dwellings are not included in this publication.
Timeframe	Project timing in the tables is listed by Calendar Quarter (Q3 = July – September), Calendar Year, or Financial Year, where indicated. Spotlight features include additional information. Proposed construction works include a forecast to the next 12-18 months.
Project Description	The project description matches the development consent authority application, or the tender release description, where provided.

Construction Snapshot is published on a quarterly basis by Infrastructure NT, within the Department of Infrastructure, Planning and Logistics. The information provides an overview of the Northern Territory's construction activity for works over \$500,000. It reflects work that is both currently under construction and potential future construction-related work as at 30 September 2023.

Data is provided through Northern Territory Government Tenders Online, development applications, building permits, occupancy permits, government agencies, government businesses, local councils, community and industry, where provided.

If you have a project to feature or update in Construction Snapshot, please contact the team via email

LAND SERVICING TO SUPPORT HOMES IN OUR REMOTE COMMUNITIES

The Northern Territory Government is delivering remote homes across the Northern Territory as part of the \$2.1 billion Our Community. Our Future. Our Homes remote housing investment package. The program is jointly funded by the Australian and Northern Territory governments.

Local decision making identifies the location and layout of subdivisions and infill lots to be serviced in remote communities.

When the program commenced, there were less than 70 available serviced lots across the whole of the Northern Territory.

There is a total of 853 lots planned through new subdivisions across 20 communities to be delivered by the end of the 2025-26 financial year. A further 980 infill lots will also be delivered.

Consultation with communities is continuing for all planned subdivision and infill lots.

As at 31 August 2023, land servicing contracts have been awarded to construct 1169 new lots across 66 communities and 12 Town Camps, of which:

- 309 subdivision lots have been complete
- 174 subdivision lots are under construction
- 652 infill lots have been completed
- 34 infill lots under construction.

A further 244 lots, through new subdivisions, are in design, and 126 are in planning for future subdivisions.

294 infill lots are in planning/design.

Four major subdivision construction contracts have been awarded to an Aboriginal Business Enterprise.

PROJECT TIMELINE

● Complete ● In progress ● Not started

- NTG is investing \$1.1 billion over 10 years to 2026-2027 through the remote housing investment package, Our Community. Our Future. Our Homes
- In 2019 the Australian Government committed a further \$550 million over five years through the National Partnership for Remote Housing Northern Territory
- NTG is investing a further \$432.3 million towards Land Servicing to support the program
- 309 subdivision lots are complete
- 652 infill lots are complete
- 174 subdivision lots are under construction
- 34 infill lots are under construction
- 244 new subdivision lots are in design
- 126 lots planned for future subdivisions
- 294 infill lots are in planning/design

Homes at Beswick subdivision

The program is co-funded by the Australian Government and Northern Territory Government.

LANDS AND PLANNING

The Northern Territory Government is committed to delivering a \$40 billion economy by 2030, planning and developing suitably serviced land to support economic development and population growth supports this commitment. For 2023-24 the Government has committed an additional \$49 million to progress residential land release across the Territory in Greater Darwin, Katherine, Tennant Creek and Alice Springs to support housing for people who want to call the Territory their home. In addition, \$50 million has been provided for industrial development in Greater Darwin and Alice Springs to support economic across the Territory.

Greater Darwin

The Holtze Land Release request for proposals (RFP) has closed, and is currently in negotiation. A tender for the first package of headworks is anticipated to be issued in early 2024. Planning is underway for headworks to support the development of renewable energy hubs in Weddell.

Katherine

Work is actively underway in Katherine East to support a mixed use lot, a community purpose lot and residential land. The tender for the Katherine East sewer pump station will be released in early 2024 and design for infrastructure to support the release of further residential land is underway.

Tennant Creek

Work is progressing on the planning and development of subdivision works to support the development of the Stage 2 of the Parnttali industrial subdivision. First titles are expected in late 2024.

Alice Springs

In Central Australia, work is progressing on the planning and development of Kilgariff North residential and community purpose land, including a community sporting precinct. Planning and design is underway for headworks to support the development of industrial land in Brewer Estate

PROJECT TIMELINE

● Complete ● In progress ● Not started

- The Holtze request for proposals (RFP) for the development of a residential subdivision on Crown land has closed and is in negotiation
- Headworks to support the development of the Katherine East Neighbourhood Centre
- Headworks to support the development of renewable energy hubs in Weddell
- The tender for the Katherine East sewer pump station to support future land release
- Design of the Parnttali Road industrial subdivision in Tennant Creek
- Design for the Kilgariff Community Sporting Precinct
- Design for the Brewer Estate headworks to support industrial land in Alice Springs

QUICK STATS

\$152 million is funded in 2023-24 under the Bringing Forward Land Development Program:

- Holtze – infrastructure headworks for the release of the new subdivision (\$44M)
- Katherine East - infrastructure to support residential land release (\$26M)
- Tennant Creek – subdivision works to support industrial and residential land release (\$15M)
- Kilgariff North– headworks to support land release including the residential, commercial, community sporting facility (\$40M).

Concept design: Katherine East

Englobo is a term for an undeveloped lot, generally a large parcel of land that has the potential for further subdivision.

TANAMI ROAD

The upgrade of Tanami Road is strategically important to the Northern Territory and Western Australia and is recognised as being nationally significant on the Infrastructure Australia Priority List due to its importance to developing Northern Australia.

The Australian Government and Northern Territory Government have committed \$262.5 million on an 80:20 co-funding basis under the Roads of Strategic Importance (Alice Springs to Halls Creek) program to contribute to sealing and upgrading works on the Territory's section of the Tanami Road.

The October 2022 Federal Budget also committed an additional \$250 million Australian Government funding on the same 80:20 basis, to continue upgrading Tanami Road.

In November 2023, following the release of the response to the Infrastructure Investment Program Review, the Australian Government committed a further \$200 million to complete the sealing of the road to the WA border.

Priority 1 works to upgrade and seal between 261 – 271 km, including two new truck bays, are complete.

Priorities 2 and 3, a contract to upgrade and seal between 271 – 330 km (Priority 2) and the planning works for the upgrade and seal between 330 km – 421 km (Priority 3) was awarded to Territory enterprise Exact Contracting on 16 June 2022 for \$73,087,965. Construction works commenced mid-2022 with the Priority 2 works and planning works for Priority 3 delivery being completed in October 2023.

Construction of a 28 km section of Priority 3 also commenced mid-2023 and is due for completion in December 2023. Priority 3 is anticipated to be fully completed by late 2024.

A design and documentation consultancy for the Priorities 4 and 6 strengthening and widening of the Tanami Road single lane seal to two lane seal from 17 km – 38 km and from 44 km – 128 km was awarded to GHD Pty Ltd on 25 August 2022 for \$2,229,815.58. This is expected to be completed in November 2023.

A design and documentation consultancy tender for Priority 5 upgrade and seal between ch 420 – 528 km was awarded on 15 September 2023 to Aurecon Australasia Pty Ltd for \$1,834,885.43. This is expected to be completed in December 2024.

These works continue to progress the upgrade priorities of the corridor for safety, flood immunity, geometry and connectivity.

PROJECT TIMELINE

- Complete ● In progress ● Not started
- Priority 1 – Yuendumu 261 – 271 km seal and upgrade (early works construction)
- Priorities 2 and 3 - upgrade and seal, between 271.81 – 421 km, awarded Q2 2022
- Priority 4 – upgrade of single lane seal to two lane seal 17 – 38 km, design awarded Q3 2022
- Priority 6 - upgrade of single lane seal to two lane seal 44 – 128 km, design awarded Q3 2022
- Priority 5 – upgrade and seal, between 420 – 528 km, design awarded Q3 2023
- Priority 7 – Rabbit Flat - seal and upgrade 528 – 624 km, design tender to be advertised Q3 2024
- Priority 8 – West Australian Border - seal and upgrade 624 – 703 km

QUICK STATS

Stakeholder Engagement:

- Continual stakeholder engagement will be undertaken to ensure works are planned and delivered with the consent of Traditional Owners and affected communities.

Environmental Monitoring:

- Environmental Risk Assessment has been drafted and there are some pending Central Land Council approvals.

Employment:

- It is expected up to 100 direct jobs will be supported during construction.
- It is expected up to 10 direct jobs will be supported under the design consultancy.

BEETALOO ROADS

The Australian Government and Northern Territory Government are delivering \$367 million of major upgrades to the road network within the Beetaloo Sub-basin area.

The public road network within the Beetaloo Sub-basin includes the Carpentaria Highway, sections of the Stuart Highway, Western Creek Road, Gorrie and Dry Creek roads and the Buchanan Highway.

The road upgrades will support anticipated increased development in the area for a range of industries including gas resources, mining, pastoral, fishing and tourism. The upgrades will improve safety and travel times, reduce vehicle-operating costs, and improve flood immunity to increase year round access.

Upgrade works have been prioritised on the Carpentaria Highway; being a key access road to the Beetaloo Sub-basin and Borroloolua as well as an important service route for the pastoral, tourism, agricultural and mining sectors, including Glencore's McArthur River Mine.

The Carpentaria Highway works are being delivered as a design and construct contract in two stages as follows:

Stage one (awarded):

- design of Carpentaria Highway from 2 - 140 km
- reconstruction from 2 - 50 km.

Stage two (awarded):

- reconstruction of Carpentaria Highway from 50 -109 km.

On 8 June 2022, Carpentaria Highway stage one was awarded to Territory enterprise Exact Contracting for \$67.3 million, with the Notice of Completion issued on 18 September 2023 following completion of the 48km from ch 2 km to ch 50 km.

On 15 September 2023, Exact Contracting was awarded Carpentaria Highway stage two, to upgrade the next 59 km from ch 50 – 109 km.

A contract for the 25 per cent design to upgrade the 35 kilometre section of the Carpentaria Highway and the October Creek Bridge, between chainages 140 km and 175 km was awarded to Jacobs Group on 4 August 2023. The design and construct tender, with 25 per cent reference design, is expected to be released in mid 2024.

The tender for detailed design to upgrade and improve the flood prone section on the Stuart Highway was released to market in mid-September 2023 and closed in late October 2023. A consultancy contract is expected to be awarded by mid December 2023.

PROJECT TIMELINE

● Complete ● In progress ● Not started

- Enabling infrastructure for developing the Beetaloo Sub-basin added to Infrastructure Australia Priority List, Q1 2021
- Australian and Northern Territory government funding announced, Q1 2021
- Carpentaria Highway design and construct tender awarded, Q2 2022
- Design and construct, stage 1 - 48 km of Carpentaria Highway from ch 2 - 50 km was completed in September 2023
- Upgrade 35 km of Carpentaria Highway from ch 140 - 175 km, includes upgrade to October Creek Bridge – the 25% design project is currently underway
- Upgrade of Stuart Highway flood prone section – the detailed design tender is currently in assessment
- Stage 2 - upgrade of Carpentaria Highway from ch 50 – 109 km is currently in progress and expected to be completed in November 2024

QUICK STATS

Project Monitoring:

- There are a total of 27 Aboriginal workers currently active* on the project; of which 12 actively worked during August 2023. (*Active includes subcontractors that work on the project).

Stakeholder Engagement:

- Ongoing engagement with industry and end user stakeholders. For more information, email bmr.dipl@nt.gov.au

Public road upgrades will:

- improve road safety
- increase road reliability during the wet season.

Carpentaria Highway between ch 2 km and 50 km

CENTRAL ARNHEM ROAD

The Northern Territory Government, with support from the Australian Government is planning for and delivering long term upgrades along Central Arnhem Road.

The Central Arnhem Road corridor is 645 km and connects Nhulunbuy to the Stuart Highway.

The road services a large number of Aboriginal communities and is a key tourism drive and freight route for the mining and pastoral industries.

More than 85 per cent of the road is unsealed and road users experience frequent restrictions or closures throughout the wet season.

Upgrading and sealing Central Arnhem Road will unlock further economic potential in the region and open a range of new long-term economic and social opportunities. This will be achieved through reduced travel times, better connectivity, increased reliability and accessibility and safer road conditions.

The Central Arnhem Road upgrade has a program of \$355 million to deliver priority upgrades along the Central Arnhem Road over the next 10 years. The funding is made up of:

- \$180 million from the Australian Government as part of the 2019-20 Budget and an additional \$100 million from the 2023-24 Budget
- Co-contributions from the Northern Territory Government of \$45 million in 2019-20 and \$25 million in 2023-24
- A further \$5 million from NTG in 2018-19 to complete an early works package to seal the road near Bulman.

Three road upgrade projects have been completed and a further five are currently in the planning and design phase. A construction tender for Package 3 is expected to be released in November 2023.

QUICK STATS

Stakeholder Engagement:

- Significant works packages pass through Aboriginal Land Trust. Continual stakeholder engagement will be undertaken to ensure works are planned and delivered with the consent of traditional owners and affected Aboriginal communities.

Construction Works:

- The program will progressively upgrade priority sections of the corridor to improve connectivity, flood immunity, safety, accessibility and economic development for the region.

PROJECT TIMELINE

● Complete ● In progress ● Not started

- **Package 1** - ch 59.8 - 66 km, a 6.2 km section past Beswick. Completed by Black Cat Civil in June 2021
- **Package 2** - ch 363.6 - 378 km - 14.4 km section up to the Goyder River bridges, completed by Black Cat Civil in December 2022
- Bulman package - ch 250.8 - 254.9 km - 4.1 km section before Bulman. Completed by Earthbuilt in March 2023
- **Packages 3** - ch 158 - 176 km, an 18 km section through Mountain Valley. The construction tender is expected to be released in November 2023. Expected construction start in Q3 2024
- **Package 4** - ch 56 - 60 km - Waterhouse River and Dook Creek floodplain - consultation with Traditional Owners scheduled to occur in early 2024. Expected construction start in Q2 2025
- **Package 5** - ch 544 - 645 km, a 101 km section from Dhailinbuy to Dhupuma - concept design for alignment sections are well progressed. Consultation with NLC and Traditional Owners scheduled to occur throughout 2024. Expected construction start from Q3 2024
- **Package 6** - ch 0 - 28.5 km, a 28.5 km section from Stuart Highway to Barunga - detailed design contract awarded in July 2023. Expected construction start in Q4 2024
- **Package 7** - ch 97 - 119 km, a 22 km section from Rusty's Hole to Jurassic Park Lookout. A detailed design contract was awarded in October 2023, with expected construction start in Q4 2024
- **Package 8** - Mainoru ch 176 - 197 km, a 21 km section through Mountain Valley. AAPA statutory approvals now in progress. Expected construction start in Q2 2026

MANDORAH MARINE INFRASTRUCTURE

The Territory Government is delivering new marine facilities for residents and visitors to Mandorah, Wagait Beach and Belyuen.

The tender for a design and construct contract has been awarded to Australian owned marine infrastructure specialist SMC Marine.

Key elements of the project to be constructed in the current scope include:

- a safe harbour formed by two breakwaters – a large northern breakwater and a smaller southern breakwater
- dredging to create an access channel, turning basin and berthing area for the ferry
- a new floating pontoon, gangway, jetty structure and causeway to enable access to the ferry from land. These facilities will include an engineered solution to ensure mobility impaired user access to the ferry. A design for this solution will be finalised in the design stage
- the re-purposing of an existing building on the site to function as a new shade and toilet structure for ferry passengers
- a new carpark, connecting road, pedestrian paths, and minor modifications to the existing carpark to improve access and trailer parking.

An early works contract to prepare the site and the existing building was awarded to local company Quality Constructions and Maintenance and was completed in August 2023, see image of site below.

PROJECT TIMELINE

QUICK STATS

Stakeholder Engagement:

- 6 Indigenous residents of Belyuen were subcontracted to Quality Constructions and Maintenance through the Belyuen Community Government Council as part of the early works contract.
- Belyuen Council's plant and equipment was also hired by the contractor to complete the works.
- Contact Communications and Stakeholder Engagement Manager on 08 8936 5668 or DHIP.DIPL@nt.gov.au

Richardson Park - redevelopment

RICHARDSON PARK

The revitalisation of Richardson Park is almost complete with foundation works finished and civil components now over 90 per cent complete. The Northern Territory Government is revitalising the park and building a new road access into Ludmilla Primary School, while preserving the sporting significance of the site.

The redevelopment includes:

- a road extension of Richardson Drive to the Ludmilla School boundary, improving accessibility to the school and overall safety for parents and students
- significant earthworks and drainage infrastructure to provide a new and improved field and new grassed areas for recreation
- new trees to provides shaded areas throughout the site to compliment the native vegetation of the adjacent "bush block" maintained by the Ludmilla Creek Landcare Group
- a public ablution facility, change rooms and equipment storage to support user groups
- community infrastructure, including exercise and playground equipment, undercover areas and BBQ facilities
- a well-lit shared path network with CCTV to maximise activation of the site, reduce anti-social behaviour and provide connectivity with Ludmilla School
- all necessary services including electrical, water, sewer and telecommunications, and
- historical acknowledgement of the long history Rugby League has with Richardson Park, including Warren 'Shadow' Mount.

Significant remediation works have been undertaken, including containment of asbestos contamination.

PROJECT TIMELINE

QUICK STATS

Construction Works:

- All work on-site including the building works are anticipated to be completed by Q2 2024
- The memorial for Warren "Shadow" Mount has been reinstated to an appropriate location acknowledging the significance of the site
- Tree planting is 100% complete with a total of 106 shade trees planted across the site.

Tiger Brennan Drive - design and construct overpass at Berrimah Road intersection

TIGER BRENNAN DRIVE OVERPASS

The Northern Territory Government in partnership with the Australian Government is constructing a new overpass at the Tiger Brennan Drive and Berrimah Road intersection.

The project is being jointly delivered to improve road safety outcomes at this intersection.

Local business Sitzler has been awarded stage two of the contract for \$127.8 million (\$140.6 million inc GST) to complete the detailed design and construction of the project which will be delivered over the next two years.

The construction of the new overpass will separate the major flow of traffic on Tiger Brennan Drive from the traffic movements on Berrimah Road.

Prioritising safety and connectivity, the project includes:

- a grade separation that will see Berrimah Road passing over Tiger Brennan Drive
- realignment of Tiger Brennan Drive to become free flowing
- entry and exit ramps connecting Tiger Brennan Drive and Berrimah Road
- improvements to Berrimah Road catering to requirements for road trains
- earthworks, drainage works, pavement construction and asphalt works
- street lighting, line marking and road safety barriers
- traffic signals on Berrimah Road only, and
- improved pedestrian and cyclist accessibility, landscaping and urban design.

Works will be undertaken in a staged manner with consideration given to minimise impact for all road users.

PROJECT TIMELINE

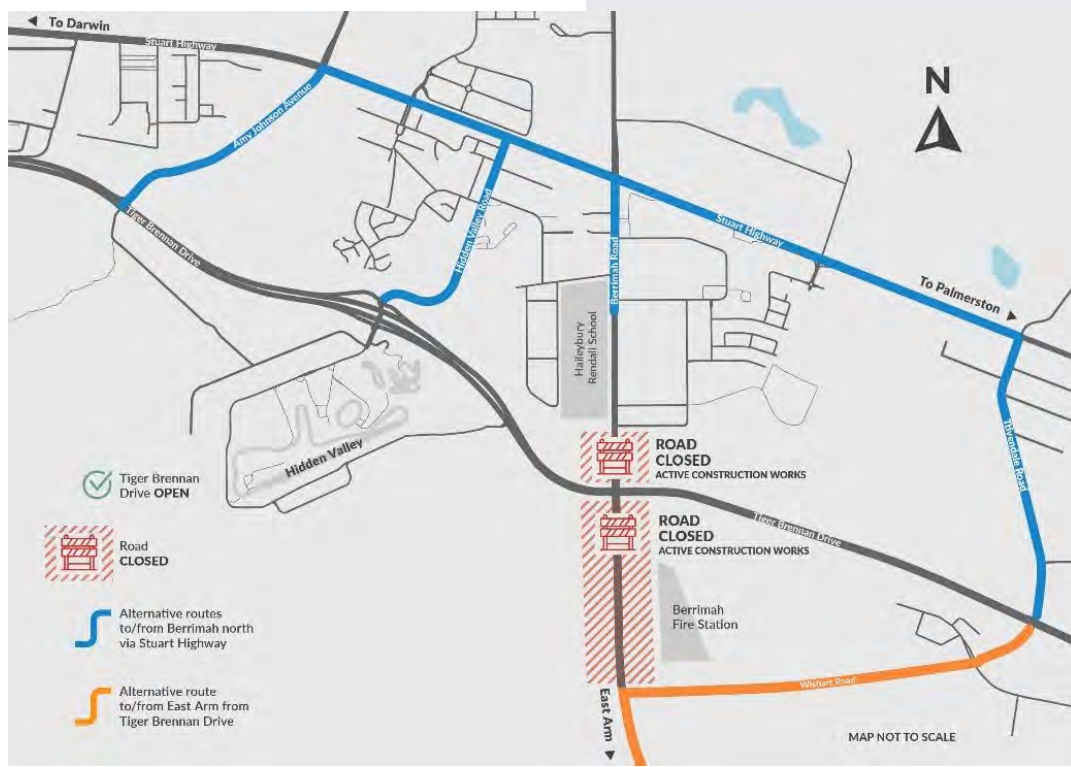

● Complete ● In progress ● Not started

- Establish site office compound completed Q3 2021
- Overpass at Tiger Brennan Drive (TBD) and Berrimah Road intersection, awarded to Sitzler Q3 2021
- Stage One – preliminary design and construction planning completed Q3 2022
- Stage Two - detailed design and construction of the works commenced Q3 2022
- Phase 1 works – construct new TBD alignment, connect to existing and open to traffic expected Q4 2023
- Phase 2 – TBD on and off ramps and new bridge and open to traffic expected Q1 2024
- Phase 3 – Berrimah Road south works complete and open to public traffic expected Q4 2024

QUICK STATS

Construction Works:

- Bulk earthworks commenced in October 2022 and Stage 1 98% complete at end of September 2023
- A section of Berrimah Road was closed in March 2023 to allow bridge construction to commence
- Major cross-drainage works completed in Q3 2023 with street lighting and pavement works to follow in Q3 2023
- Pavement construction commenced
- Bridge due for completion in Q4 2023
- To minimise future impact for all road users, intersection capacity at Tiger Brennan Drive and Wishart Road is currently being upgraded, completion due Q4 2023.

FRANCES BAY MOORING BASIN LOCK

On site construction and fabrication of the new lock gates is continuing as part of the Frances Bay Mooring Basin lock upgrade project.

Northern Territory contractor Advance Civil Engineering Pty Ltd is delivering the Territory Government's \$18.5 million upgrade of the Frances Bay Mooring Basin lock.

The upgrade will:

- deliver new lock doors
- modernise the mechanical and electrical systems
- extend the life of the asset to ensure the long term sustainability, efficiency and safety of the facility and the industries that use the facility.

Work is progressing on the lock upgrade and the first major closure was successfully completed on time in September.

The bulk earthworks are complete on the northern and southern sides of the lock and the emergency sea side cofferdam gate has been installed and tested.

The northern and southern side of the lock have been stabilised with the tie rods excavated, removed and successfully replaced with a value engineered solution.

The second major closure will take place for a total of seven weeks, with a one week opening in the middle. Closures are between 6 October to 6 November (4 weeks), and then 14 November to 4 December 2023 (3 weeks).

PROJECT TIMELINE

QUICK STATS

Stakeholder Engagement:

- The Darwin Harbour Infrastructure Project team continues to work with the contractor and stakeholders to minimise the impacts on the users of the lock, mooring basin and Fisherman's Wharf as construction works continue, including managing the number and length of time for lock closures.
- Contact Communications and Stakeholder Engagement Manager on 08 8936 5668 or DHIP.DIPL@nt.gov.au

Construction Works:

- Upgrade works will address concerns about the lock conditions and are expected to extend the life of the lock by a minimum of 30 years.

CIVIC AND STATE SQUARE REVITALISATION

Revitalisation of the Civic and State Square Precinct is part of the historic Darwin City Deal delivered in partnership with the Australian Government, the Northern Territory Government and the City of Darwin, and will transform the Civic and State Square Precinct.

Local company Sitzler was awarded an \$88 million contract to construct the Northern Territory Art Gallery, previously referred to as the State Square Art Gallery, as well as plan and design the remaining elements of the Civic and State Square Precinct.

The Northern Territory Art Gallery is a key component of the precinct and will bring together art and architecture to create a distinct sense of place.

The Art Gallery will feature four large galleries with high ceilings, a spacious foyer, and a dedicated program space for hands-on workshops providing exciting and interactive experiences that welcome everyone to connect with art, creativity, new ideas, and each other. A shop and café will offer the opportunity to browse and relax whilst enjoying the lush landscaped gardens surrounding the gallery.

Despite delays due to latent conditions and unexpected historical finds, bulk excavations are now complete and preparation for the building's basement construction is well underway. Construction of the gallery is anticipated to be completed Q2 2025, followed by a period of approximately six months to build and install exhibitions before the gallery opens to the public.

The planning and design of the remaining elements of the Precinct will ensure integration of the architecture and landscape design, providing more green spaces in the Precinct, creating a lively and active space for Territorians and tourists, with the concept design for the Precinct on track for completion in May 2024.

To date, key stakeholders have informed the planning through a Precinct Reference Group and the concept designs will be used to engage with the broader public.

PROJECT TIMELINE

QUICK STATS

Construction works:

Innovative construction methods are being used to minimise the carbon footprint of the art gallery. Low carbon (green) concrete is carefully designed to use waste materials in the manufacture of concrete and thereby reduce the environmental impact of concrete during the manufacturing and construction phase.

2616 tonnes of porcellanite rock salvaged from the excavation will be re-used in landscaping features on this site and in Liberty Square.

Art gallery bulk excavations and in ground services are now complete and construction has commenced in the basement.

SHIERS STREET HOUSING REDEVELOPMENT

The Northern Territory Government (NTG) is redeveloping the public housing complex on Shiers Street in The Narrows in partnership with the community housing sector.

The NTG has invested \$14 million to start the process of transforming this legacy site into a modern, fit for purpose precinct with a mix of social and affordable housing.

The new housing will be designed to promote liveability in tropical climatic conditions, improve the look and features of the neighbourhood and make living in the area more enjoyable for tenants and residents.

Construction of the new housing is not part of the current phase of works.

It is proposed that Shiers Street will be redeveloped through a two-staged process. The second stage of the process will include identifying a Community Housing Provider (CHP), or consortium who will undertake construction and manage the housing on site.

Redeveloping Shiers Street in partnership with the community housing sector was identified as a commitment under the [Northern Territory Community Housing Growth Strategy 2022-32](#) launched in April 2022. Read more about the Community Housing Growth Strategy on the Territory Families, Housing and Community [website](#).

The project will build upon the ongoing transition of management of social and affordable housing from the Northern Territory Government to registered Community Housing Providers. This aligns the Territory with best practice housing approaches from other Australian and international jurisdictions.

PROJECT TIMELINE

BENEFITS

The benefits of social and affordable housing managed by Community Housing Providers includes:

- access to revenue not available to the Northern Territory Government, such as Commonwealth Rent Assistance and low cost finance
- improved tenancy and asset management – required by rigorous key performance indicators under the National Regulatory Scheme for Community Housing
- more tailored supports for people with complex needs or experiencing major life events
- leveraging options which allow providers to grow their portfolios while increasing the number of available, social and affordable dwellings.

DARWIN SHIP LIFT

The Northern Territory Government is delivering the Darwin Ship Lift Facility to establish Darwin as a thriving maritime services industry hub.

The ship lift will be capable of lifting vessels up to 5500 tonnes and will enable larger vessels in the defence, energy, pearling, fishing and coastal cruising industries to be serviced in Darwin.

Clough BMD Joint Venture was awarded the construction contract on 8 September 2023 to build the ship lift facility at the East Arm site.

The companies that comprise Clough BMD Joint Venture have demonstrated capacity to deliver key infrastructure projects in the Territory and combine local knowledge with national and global expertise.

The NT and Federal environment approvals are now in hand.

The contractor has been establishing its site and construction plans site survey and set out, fencing, environmental controls for construction approvals, potholing existing utilities and establish the initial site office.

The Darwin Harbour Infrastructure Project team is continuing to progress the project by:

- finalising the ship lift design in consultation with Defence, industry and the operator
- continuing the Defence Qualification processes for the facility.

PROJECT TIMELINE

QUICK STATS

- 250 workers will be employed on the project, with an average of 100 workers on-site generally
- The ship lift is 26 metres wide, 103 metres long and will be capable of lifting vessels of up to 5500 tonnes
- Tenders to supply the ship lift and self-propelled modular transporter closed in September 2023.

In Construction

Proposed

Territory Wide		Anticipated Commencement
GOVERNMENT PROJECTS - Australian Government and Northern Territory Government		
Regional Logistics Hubs		2024-25
Territory Wide - replace high pressure sodium (HPS) to LED streetlight on all Roads		Q1 2024
COOPERATIVE PROJECTS - Jointly Funded		
Regional Logistics Hubs - priority rail sidings		2024-25
PRIVATE SECTOR PROJECTS		
NT Catholic Education - lift installation at 5 schools		Q4 2023

Concept

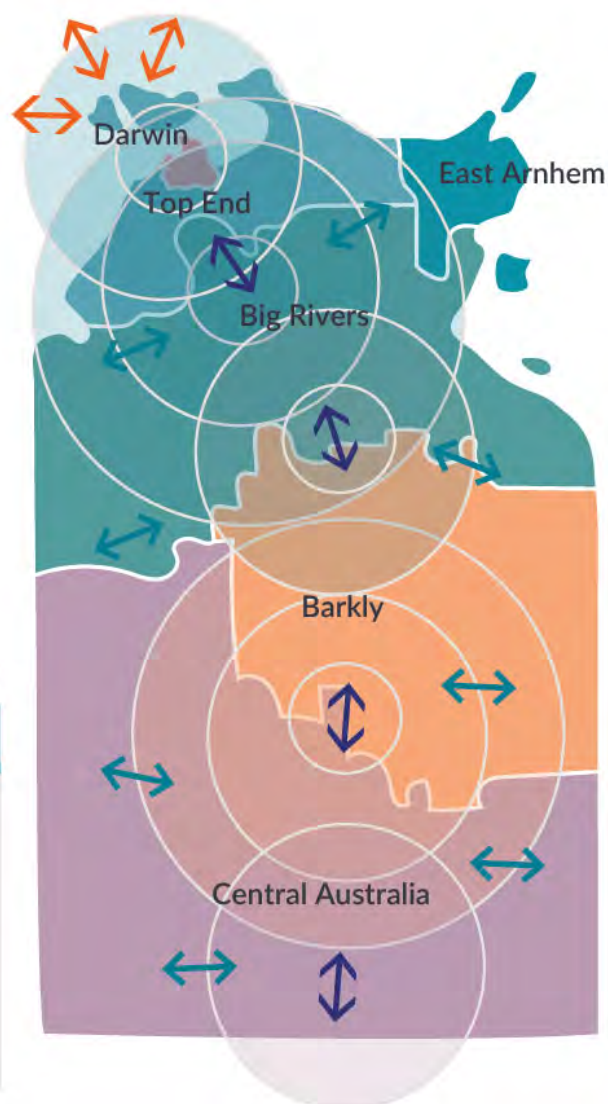

Network of Regional Logistics Hubs across the NT

Result

- ✓ Supply chain that caters to all of NT industry (and interstate catchment)
- ✓ Maximises efficiency (reduced costs to infrastructure users and providers)
- ✓ Each hub caters to the region's key industries and opportunities
- ✓ Infrastructure needs are clarified

Note

- ✓ Arrows indicate two way trade (imports and exports)

Concept for Logistics Hubs – proposed network of hubs

Spotlight

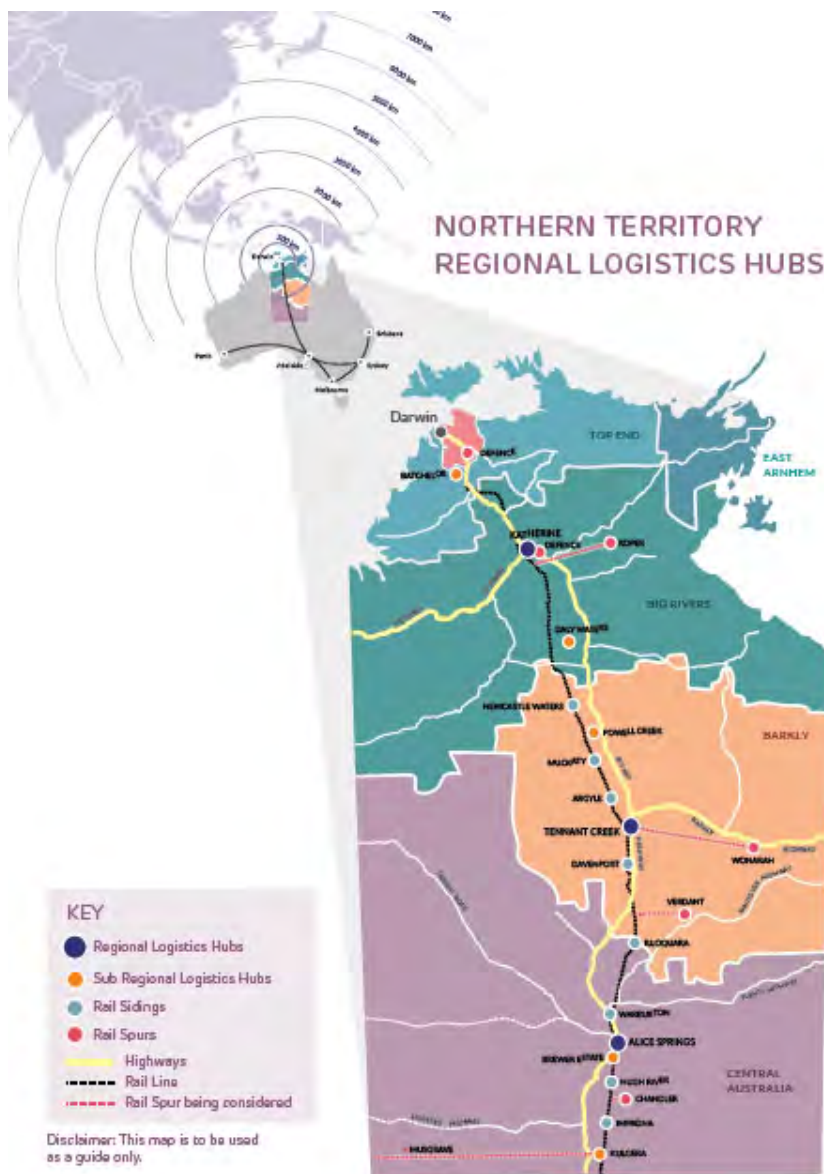

LOGISTICS HUBS

The Network of Regional Logistics Hubs (RLH) being on the Infrastructure Australia Priority List, is underpinned by a \$440 million commitment by the Australian Government.

The estimated total investment benefit across several proposed projects in mining, minerals, agribusiness and energy industries across the NT is over \$38 billion. This investment is expected to support an estimated 6,000+ construction jobs.

Much of the investment and employment increase will occur in remote and very remote regions with higher proportions of First Nations people. Improving rail efficiency and the capacity of different freight modes will reduce the predominance of trucks being used to transport freight over long distances in the Territory. This will improve the environmental and social impact while reducing the carbon intensity of transport.

Development of the Regional Logistics Hubs will capitalise on the Territory's access to Asian markets, renewable energies and rich resources supporting sustainable economic development. The development is also expected to generate long-term employment opportunities, supply chain resilience and contribute to the growth of the population and economy in northern Australia.

PROJECT TIMELINE

- Complete ● In progress ● Not started
- Freight and Logistics team within Infrastructure NT fully staffed Q3 2023
- Evidence base developed to inform logistics demand and infrastructure capacity including supply chain mapping
- Industry engagement to establish most immediate freight demand requirements
- Aurizon takes long-term lease of the NT rail line, effective Q3 2022
- 2022 Federal Government Budget committed \$440 million equity contribution to the network of logistics hubs across the Northern Territory
- Darwin Harbour Development Plan scope was provided to GHD. The plan will prioritise environment and sustainability, culture and heritage, liveability and community, industry development, project development and governance framework
- In July 2023, Aurizon presented to the market containerised freight network strategy which will create growth for Darwin and the Territory
- Industry engagement continues to refine requirements and solutions, ongoing
- The Stage 2 Business Case (BC) for RLH (which include a list of priority infrastructure) is expected to be finalised by 1 December 2023. When approved, this will be submitted to Infrastructure Australia
- Following submission of stage 2 BC, work on stage 3 BC will commence. With a large amount of information already gathered to support and expedite stage 3 submission
- Industry and community provided with certainty by development of long term Darwin Harbour Development Plan, Q3 2024
- Increased trade volumes via Darwin, increase of the international and national trade task transiting Northern Australia, Q4 2024 - ongoing

STRATEGIC PLANNING

The mapping of strategic hubs, locations, infrastructure capacity and requirements continues to be reviewed including:

- Rail spurs, sidings and passing loops
- Laydown areas
- Bulk storage and warehousing
- Road impacts, and
- Connectivity and interface with Darwin Port, and
- Other enabling infrastructure

Proposed

Central Australia	Anticipated Commencement
GOVERNMENT PROJECTS - Australian Government and Northern Territory Government	
Alice Springs Hospital - ambulatory care centre	Q1 2024
Alice Springs Hospital - Hybrid Operating Theatre	Q1 2024
Alice Springs Correctional Centre - management zone fencing	Q1 2024
Alice Springs Correctional Centre - refurbish ablutions in G block	Q1 2024
Bloomfield Street - subdivision works	Q1 2024
Mount Denison Road - pavement repairs various sections ch 20 - 67 km	Q1 2024
National Aboriginal Art Gallery	Q1 2024
Plenty Highway - pavement repairs various sections ch 297 - 497 km	Q1 2024
Tanami Road/Bonds Springs Station into Hamilton Downs Station - upgrade to 2 Lane sealed standard of Tanami Road	Q1 2024
Yuendumu Health Centre - upgrade fencing and install CCTV	Q1 2024
Alice Springs Fire Station - new appliance shed	Q2 2024
Gillen Primary School -revitalise early childhood outdoor space	Q2 2024
Kilgariff - rugby oval	Q2 2024
Papunya Health Clinic - install secure fence	Q2 2024
Sandover Highway - upgrade and sealing approximately 20 km from Urapuntja Health Service intersection into Ammaroo Station	Q2 2024
Willowra Road - pavement repairs various sections 3.9 - 90.6 km	Q2 2024
Yuendumu School - new play equipment, outdoor eating area and amphitheatre	Q2 2024
Alice Springs - Schwarz Crescent - construct roundabout and install traffic lights	Q3 2024
Alice Springs - industrial land subdivision	TBA
Alice Springs Correctional Centre - design and construct secure entry	TBA
Araluen Cultural Precinct- reseal site roads and carparks	TBA

Central Australia (continued)	Anticipated Commencement

DARWIN REGION WATER SUPPLY

The Darwin Region Water Supply Program (the Program) is a sustainable, long term infrastructure solution that will deliver safe and secure drinking water for Territorians, as well as enable economic growth and job creation through irrigated agriculture and industry expansion.

The Program will be delivered in two stages to supply 67.3 gigalitres (GL) of additional water each year to the Darwin region:

- Stage 1: Returning Manton Dam to service as an additional water source to boost our short term water supply by 2026. Stage 1 also includes construction of a new water treatment plant at Strauss and the planning and approvals phase for the Adelaide Off-stream Water Storage (AROWS) Project.
- Stage 2: Constructing and commissioning AROWS to secure a long-term water supply within the next 7 to 10 years (pending regulatory approvals and future investment decision).

As part of Stage 1, the NT Government awarded a \$2.4 million tender to GHD Pty Ltd to undertake the necessary scientific, stakeholder and regulatory processes required to deliver an Environmental Impact Statement for the AROWS project.

The NT Government has also recently released a tender to market, seeking a lead engineering consultant to undertake engineering and design work, and produce a Concept Design Report for AROWS. The tender closed on 6 September 2023 and it is expected that the successful tenderer will be announced by the end of 2023.

The Power and Water Corporation has also released a tender for the design and construction of the Manton Dam Return to Service (RTS) project and the Strauss Water Treatment Plant. The tender closed on 8 August 2023 with award expected by early 2024. Works on Manton Dam is anticipated to commence by mid-2024.

Stage 1 of the Program is jointly funded by the Australian Government's National Water Grid Authority (\$300.6 million) and the Northern Territory Government (over \$26 million).

PROJECT TIMELINE

● Complete ● In progress ● Not started

- AROWS preliminary assessment, Q1 2021
- Completion of the AROWS Detailed Business Case, Q1 2022
- Darwin region water supply infrastructure upgrades added to the Infrastructure Australia Priority List as an investment ready project, Q1 2022
- 2022 Federal Government Budget announced \$300.6 million for stage 1, including returning Manton Dam to service and planning and approvals for AROWS
- Community Reference Group established
- AROWS EIS tender awarded to GHD Pty Ltd on 18 April 2023
- AROWS concept design tender released on 26 July 2023. Tenders closed on 6 September 2023, with award expected by the end of 2023
- Environmental Impact Statement for AROWS
- Concept design for AROWS
- The design and construct tender for the Manton Dam Return to Service Project was publically released 28 April 2023. Tenders closed 8 August 2023 and the successful tenderers are expected to be announced by early 2024.
- Continue stakeholder engagement and community consultation
- AROWS Environmental Referral submitted to the environmental regulator and made available for public comment
- Manton Dam return to service, expected completion 2026
- AROWS construction, expected to commence 2026 (subject to regulatory approvals and future investment decision)

QUICK STATS

Stakeholder Engagement:

- Community members are encouraged to contact their [Community Reference Group](#) representative to voice matters related to the Program.
- Alternatively, community members can contact the NT Government Project Team by email on WaterInfrastructure.DIPL@nt.gov.au

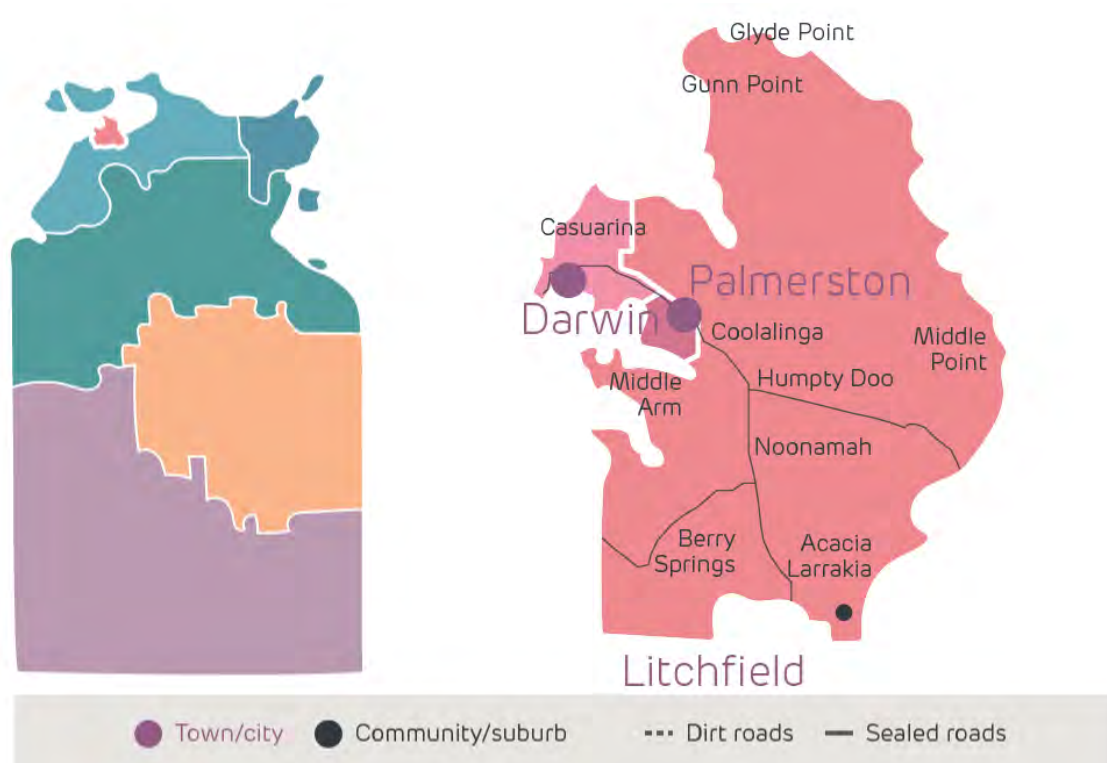

Sign up to receive Community Updates on the Darwin Region Water Supply Infrastructure Program.

MIDDLE ARM SUSTAINABLE DEVELOPMENT PRECINCT

The Northern Territory Government is working to transform Middle Arm into a sustainable 'development ready' precinct. Sustainable outcomes and environmental protection of Darwin Harbour and surrounds are at the core of planning for the Middle Arm Sustainable Development Precinct.

The precinct provides approximately 1200 hectares of industrial land and supports the delivery of a \$40 billion economy by 2030, while meeting commitments to net zero emissions by 2050. The essential elements and opportunities of a sustainable development precinct as it relates to Middle Arm include:

- maximising renewable energy use
- maximising economic outcomes while minimising environmental and social impacts
- efficient water use including reuse where possible
- circular economy principles including reusing waste streams (such as using waste as a feedstock) and carbon capture
- efficient use of infrastructure.

Engagement with the traditional owners of Middle Arm is key to establishing an appropriate cultural heritage management framework and in turn, supporting positive long-term cultural outcomes. A cultural consultative committee has been established with the objective of delivering a Larrakia-led cultural values survey for the precinct.

Preserving Darwin's environmental values, including the Darwin Harbour, is a critical goal to meeting the sustainable objectives of the Precinct.

The Strategic Environmental Assessment submission to NT EPA is anticipated for Q4 2023, with public comment/exhibition anticipated to commence in 2024.

PROJECT TIMELINE

● Complete ● In progress ● Not started

- Common user infrastructure at the Middle Arm Precinct added to the Infrastructure Australia Priority List, Q1 2022
- 2022 Federal Government Budget committed \$1.5 billion equity contribution to Middle Arm
- Consider potential investment options (Stage 2 of Infrastructure Australia's Assessment Framework – business case)
- Conceptual planning of infrastructure for Strategic Environmental Assessment, Q2 2023
- Submission of the Strategic Environmental Assessment, Q4 2023
- Initial design of infrastructure, Q3 2024
- Finalisation of procurement of activation infrastructure, Q2 2025
- Environmental approval decision 2025
- Construction of infrastructure commence 2026 (subject to approvals)

QUICK STATS

Stakeholder Engagement:

- Interested stakeholders can email: Contact.MASDP@nt.gov.au to register their interest in the community engagement process.
- The Department of Infrastructure, Planning and Logistics is leading the planning, design and approvals process.
