Definitions	
In Construction	Tender has been awarded, and works commenced. If a tender is a design and construct, the works include the design phase.
Proposed	Project could still be subject to consultation and/or design approvals, funding or other requirements. If at tender, it has not yet been awarded. Projects may have funding.
Spotlight	An overview style update of key strategic projects.
Quarter 4 2023	This edition reflects construction status as at 31 December 2023.
Value of Projects	Known projects valued at \$500 000 or greater are included in Construction Snapshot. Values are generally GST inclusive, however some public announcements may be GST exclusive.
Types of Projects	Most types of construction projects are included (multiple dwellings residential, commercial, community, civil etc.) over the value of \$500 000. Maintenance period contracts and single private dwellings are not included in this publication.
Timeframe	Project timing in the tables is listed by Calendar Quarter (Q4 = October – December), Calendar Year, or Financial Year, where indicated. Spotlight features include additional information. Proposed construction works include a forecast to the next 12-18 months.
Project Description	The project description matches the development consent authority application, or the tender release description, where provided.

Construction Snapshot is published on a quarterly basis by Infrastructure NT, within the Department of Infrastructure, Planning and Logistics. The information provides an overview of the Northern Territory's construction activity for works over \$500,000. It reflects work that is both currently under construction and potential future construction-related work as at 31 December 2023.

Data is provided through Northern Territory Government Tenders Online, development applications, building permits, occupancy permits, government agencies, government businesses, local councils, community and industry, where provided.

If you have a project to feature or update in Construction Snapshot, please contact the team via email

LAND SERVICING TO SUPPORT HOMES IN OUR REMOTE COMMUNITIES

The Northern Territory Government is delivering remote homes across the Northern Territory as part of the \$2.1 billion *Our Community. Our Future. Our Homes* remote housing investment package. The program is jointly funded by the Australian and Northern Territory governments.

Local decision making identifies the location and layout of subdivisions and infill lots to be serviced in remote communities.

When the program commenced, there were less than 70 available serviced lots across the whole of the Northern Territory.

There is a total of 853 lots planned through new subdivisions across 20 communities to be delivered by the end of the 2025-26 financial year. A further 1020 infill lots will also be delivered.

Consultation with communities is continuing for all planned subdivision and infill lots.

As at 31 December 2023, land servicing contracts have been awarded to construct 1249 new lots across 67 communities and 14 Town Camps, of which:

- 309 subdivision lots have been complete
- 174 subdivision lots are under construction
- 737 infill lots have been completed
- 29 infill lots under construction.

A further 244 lots, through new subdivisions, are in design, and 126 are in planning for future subdivisions.

256 infill lots are in planning/design.

Four major subdivision construction contracts have been awarded to an Aboriginal Business Enterprise.

PROJECT TIMELINE

● Complete ● In progress ● Not started

NTG is investing \$1.1 billion over 10 years to 2026-2027 through the remote housing investment package, *Our Community. Our Future. Our Homes*

In 2019 the Australian Government committed a further \$550 million over five years through the National Partnership for Remote Housing Northern Territory

NTG is investing a further \$432.3 million towards Land Servicing to support the program

309 subdivision lots are complete

737 infill lots are complete

174 subdivision lots are under construction

29 infill lots are under construction

244 new subdivision lots are in design

126 lots planned for future subdivisions

256 infill lots are in planning/design

Homes at Ramingining subdivision

The program is co-funded by the Australian Government and Northern Territory Government.

LANDS AND PLANNING

The Northern Territory Government is committed to delivering a \$40 billion economy by 2030, planning and developing suitably serviced land to support economic development and population growth supports this commitment. For 2023-24 the Government has committed an additional \$49 million to progress residential land release across the Territory in Greater Darwin, Katherine, Tennant Creek and Alice Springs to support housing for people who want to call the Territory their home. In addition, \$50 million has been provided for industrial development in Greater Darwin and Alice Springs to support economic development across the Territory.

Greater Darwin

The Holtze Land Release request for proposals (RFP) has closed, and is currently in negotiation. A tender for the first package of headworks is anticipated to be issued in early 2024. Planning is underway for headworks to support the development of renewable energy hubs in Weddell.

Katherine

Work is actively underway in Katherine East to support a mixed use lot, a community purpose lot and residential land. The tender for the Katherine East sewer pump station will be released late 2024 and design for infrastructure to support the release of further residential land is underway.

Tennant Creek

Work is progressing on the design of the subdivision to support the development of Stage 2 of the Parnttali industrial subdivision. First titles are expected mid 2025.

Alice Springs

In Central Australia, work is progressing on the planning and development of Kilgariff North residential and community purpose land, including a community sporting precinct. Planning and design is also underway for headworks to support the development of industrial land in Brewer Estate, as part of the Regional Logistics Hubs.

PROJECT TIMELINE

● Complete ● In progress ● Not started

- The Holtze request for proposals (RFP) for the development of a residential subdivision on Crown land has closed and is in negotiation
- Headworks to support the development of the Katherine East Neighbourhood Centre
- Headworks to support the development of renewable energy hubs in Weddell
- The tender for the Katherine East sewer pump station to support future land release
- Design of the Parnttali Road industrial subdivision in Tennant Creek
- Design for the Kilgariff Community Sporting Precinct
- Design for the Brewer Estate headworks to support industrial land in Alice Springs

QUICK STATS

\$152 million is funded in 2023-24 under the Bringing Forward Land Development Program:

- Holtze – infrastructure headworks for the release of the new subdivision (\$44M)
- Katherine East - infrastructure to support residential land release (\$26M)
- Tennant Creek – subdivision works to support industrial and residential land release (\$15M)
- Kilgariff North – headworks to support land release including the residential, commercial, community sporting facility (\$40M).

Katherine East Neighbourhood Centre – internal subdivision construction works.

Tanami Road - upgrade and sealing between ch 271.81 - 421.0 km

TANAMI ROAD

The upgrade of Tanami Road is strategically important to the Northern Territory and Western Australia and is recognised as being nationally significant on the Infrastructure Australia Priority List due to its importance to developing Northern Australia.

The Australian Government and Northern Territory Government have committed \$262.5 million on an 80:20 co-funding basis under the Roads of Strategic Importance (Alice Springs to Halls Creek) program to contribute to sealing and upgrading works on the Territory's section of the Tanami Road.

The October 2022 Federal Budget also committed an additional \$250 million Australian Government funding on the same 80:20 basis, to continue upgrading Tanami Road.

In November 2023, following the release of the response to the Infrastructure Investment Program Review, the Australian Government committed a further \$200 million to complete the sealing of the road to the WA border.

Priority 1 works to upgrade and seal between 261 – 271 km, including two new truck bays, are complete.

Priorities 2 and 3, a contract to upgrade and seal between 271 – 330 km (Priority 2) and the planning works for the upgrade and seal between 330 km - 421 km (Priority 3) was awarded to Territory enterprise Exact Contracting on 16 June 2022 for \$73,087,965. Construction works commenced mid-2022 with the Priority 2 works and planning works for Priority 3 delivery being completed in November 2023.

Priority 3 construction works commenced mid-2023 and is anticipated to be fully completed by late 2024.

A design and documentation consultancy for the Priorities 4 and 6 strengthening and widening of the Tanami Road single lane seal to two lane seal from 17 km - 38 km and from 44 km - 128 km was awarded to GHD Pty Ltd on 25 August 2022 for \$2,229,815.58. This was completed in November 2023.

A design and documentation consultancy tender for Priority 5 upgrade and seal between ch 420 - 528 km was awarded on 15 September 2023 to Aurecon Australasia Pty Ltd for \$1,834,885.43. This is expected to be completed in early 2025.

These works continue to progress the upgrade priorities of the corridor for safety, flood immunity, geometry and connectivity.

PROJECT TIMELINE

● Complete ● In progress ● Not started

- Priority 1 – Yuendumu 261 – 271 km seal and upgrade (early works construction)
- Priorities 2 and 3 - upgrade and seal, between 271.81 – 421 km, awarded Q2 2022
- Priority 4 – upgrade of single lane seal to two lane seal 17 – 38 km, design awarded Q3 2022
- Priority 6 - upgrade of single lane seal to two lane seal 44 – 128 km, design awarded Q3 2022
- Priority 5 – upgrade and seal, between 420 – 528 km, design awarded Q3 2023
- Priority 7 – Rabbit Flat - seal and upgrade 528 – 624 km, design tender to be advertised Q3 2024
- Priority 8 – West Australian Border - seal and upgrade 624 – 703 km

QUICK STATS

Stakeholder Engagement:

- Continual stakeholder engagement will be undertaken to ensure works are planned and delivered with the consent of Traditional Owners and affected communities.

Environmental Monitoring:

- Environmental Risk Assessment has been drafted and there are some pending Central Land Council approvals.

Employment:

- It is expected up to 100 direct jobs will be supported during construction.
- It is expected up to 10 direct jobs will be supported under the design consultancy.

INDUSTRY ROADS

The Australian Government and Northern Territory Government are delivering \$367 million of major upgrades to the road network within the Beetaloo Sub-basin area.

The public road network within the Beetaloo Sub-basin includes the Carpentaria Highway, sections of the Stuart Highway, Western Creek Road, Gorrie and Dry Creek roads and the Buchanan Highway.

The road upgrades will support anticipated increased development in the area for a range of industries including gas resources, mining, pastoral, fishing and tourism. The upgrades will improve safety and travel times, reduce vehicle-operating costs, and improve flood immunity to increase year round access.

Upgrade works have been prioritised on the Carpentaria Highway; being a key access road to the Beetaloo Sub-basin and Borroloola as well as an important service route for the pastoral, tourism, agricultural and mining sectors, including Glencore's McArthur River Mine.

The Carpentaria Highway works are being delivered as a design and construct contract in two stages as follows:

Stage one (awarded):

- design of Carpentaria Highway from 2 - 140 km
- reconstruction from 2 - 50 km.

Stage two (awarded):

- reconstruction of Carpentaria Highway from 50 -109 km.

On 8 June 2022, Carpentaria Highway stage one was awarded to Territory enterprise Exact Contracting for \$67.3 million, with the Notice of Completion issued on 18 September 2023 following completion of the 48km from ch 2 km to ch 50 km.

On 15 September 2023, Exact Contracting was awarded Carpentaria Highway stage two, to upgrade the next 59 km from ch 50 - 109 km.

A contract for the 25 per cent design to upgrade the 35 kilometre section of the Carpentaria Highway and the October Creek Bridge, between chainages 140 km and 175 km was awarded to Jacobs Group on 4 August 2023. The design and construct tender, with 25 per cent reference design, is expected to be released in mid 2024.

The tender for detailed design to upgrade and improve the flood prone section on the Stuart Highway was released to market in mid-September 2023 and closed in late October 2023. A design consultancy contract is expected to be awarded in March 2024.

Public road upgrades will:

- improve road safety
- increase road reliability during the wet season.

PROJECT TIMELINE

● Complete ● In progress ● Not started

- Enabling infrastructure for developing the Beetaloo Sub-basin added to Infrastructure Australia Priority List, Q1 2021
- Australian and Northern Territory government funding announced, Q1 2021
- Carpentaria Highway design and construct tender awarded, Q2 2022
- Design and construct, stage 1 - 48 km of Carpentaria Highway from ch 2 - 50 km was completed in September 2023
- Upgrade 35 km of Carpentaria Highway from ch 140 - 175 km, includes upgrade to October Creek Bridge - the 25% design project is currently underway
- Upgrade of Stuart Highway flood prone section - the detailed design tender is in assessment. A design consultancy contract is expected to be awarded in March 2024
- Stage 2 - upgrade of Carpentaria Highway from ch 50 - 109 km is currently in progress and expected to be completed in November 2024

QUICK STATS

Project Monitoring:

- There are a total of 32 Aboriginal workers currently active* on the project; of which 9 actively worked during December 2023. (*Active includes subcontractors that work on the project).

Stakeholder Engagement:

- Ongoing engagement with industry and end user stakeholders. For more information, email bmr.dipl@nt.gov.au

Carpentaria Highway - clearing and grubbing at ch 95 - 106 km

Carpentaria Highway - detour construction at ch 60-70 km

Spotlight

CENTRAL ARNHEM ROAD

The Northern Territory Government, with support from the Australian Government is planning for and delivering long term upgrades along Central Arnhem Road.

The Central Arnhem Road corridor is 645 km and connects Nhulunbuy to the Stuart Highway.

The road services a large number of Aboriginal communities and is a key tourism drive and freight route for the mining and pastoral industries.

More than 85 per cent of the road is unsealed and road users experience frequent restrictions or closures throughout the wet season.

Upgrading and sealing Central Arnhem Road will unlock further economic potential in the region and open a range of new long-term economic and social opportunities. This will be achieved through reduced travel times, better connectivity, increased reliability and accessibility and safer road conditions.

The Central Arnhem Road upgrade has a program of \$355 million to deliver priority upgrades along the Central Arnhem Road over the next 10 years. The funding is made up of:

- \$180 million from the Australian Government as part of the 2019-20 Budget and an additional \$100 million from the 2023-24 Budget
- Co-contributions from the Northern Territory Government of \$45 million in 2019-20 and \$25 million in 2023-24
- A further \$5 million from NTG in 2018-19 to complete an early works package to seal the road near Bulman.

A construction tender for Package 3 was released in December 2023 and is scheduled to close in mid-February. Construction expected to commence in Q3 2024.

QUICK STATS

Stakeholder Engagement:

- Significant works packages pass through Aboriginal Land Trust. Continual stakeholder engagement will be undertaken to ensure works are planned and delivered with the consent of traditional owners and affected Aboriginal communities.

Construction Works:

- The program will progressively upgrade priority sections of the corridor to improve connectivity, flood immunity, safety, accessibility and economic development for the region.

PROJECT TIMELINE

● Complete ● In progress ● Not started

- **Package 1** - ch 59.8 - 66 km, a 6.2 km section past Beswick. Completed by Black Cat Civil in June 2021
- **Package 2** - ch 363.6 - 378 km - 14.4 km section up to the Goyder River bridges, completed by Black Cat Civil in December 2022
- **Bulman package** - ch 250.8 - 254.9 km - 4.1 km section before Bulman. Completed by Earthbuilt in March 2023
- **Packages 3** - ch 158 - 176 km, an 18 km section through Mountain Valley. The construction tender was released in December 2023. Expected construction start in Q3 2024

GUNYANGARA (GOVE PORT) TOURISM PRECINCT

The Northern Territory Government is ensuring East Arnhem is one of the Territory's fastest growing regions, with the final construction tender to upgrade marine and landside facilities at Gunyangara Tourism Precinct released.

New marine facilities will enable ongoing maintenance by local businesses in Nhulunbuy, while the floating pontoon is detachable so it can be removed and stored safely in preparation for a cyclone.

The upgrades will provide better facilities for recreational users, charter vessels, small cruise ship operators and other marine operators as well as opportunities to maximise local and Indigenous participation and support regional growth.

The tender includes:

- new extended rock groyne that vehicles and pedestrians can access
- careening facilities that vessels can dock alongside for maintenance
- floating pontoon extending out from the groyne
- washdown bay
- car park upgrades
- entry structure.

This is the third package of works for the \$9 million Gunyangara (Gove Port) Tourism Precinct project, which will bolster marine and landside facilities for vessels to dock to enable more visitors to explore the region's natural beauty and rich cultural history.

Local Indigenous Business Enterprise Deltareef completed the first package of early works for this project in 2022 to secure an area of significance in the car park on the site adjacent to the Gove Boat Club. Deltareef has also completed structural works for a \$1.4 million package that included toilet facilities, shade and seating to provide additional amenities and comfort for visitors and users.

This created fifteen jobs, 30% of which were local Aboriginal people, and used locally sourced Stringybark trees milled at the timber mill owned by the Gumatj Corporation.

An additional seven local Aboriginal people selected the trees, milled the timber and prepared it for construction.

The Gunyangara (Gove Port) Tourism Precinct is jointly funded by the Australian Government through the Aboriginals Benefit Account to the Gumatj Corporation, the Northern Territory Government and Developing East Arnhem Limited.

PROJECT TIMELINE

QUICK STATS

Stakeholder Engagement:

- DIPL is working with local stakeholders to deliver the project. For stakeholder queries please contact Darwin Harbour Infrastructure Projects on 8936 5668.

Construction Works:

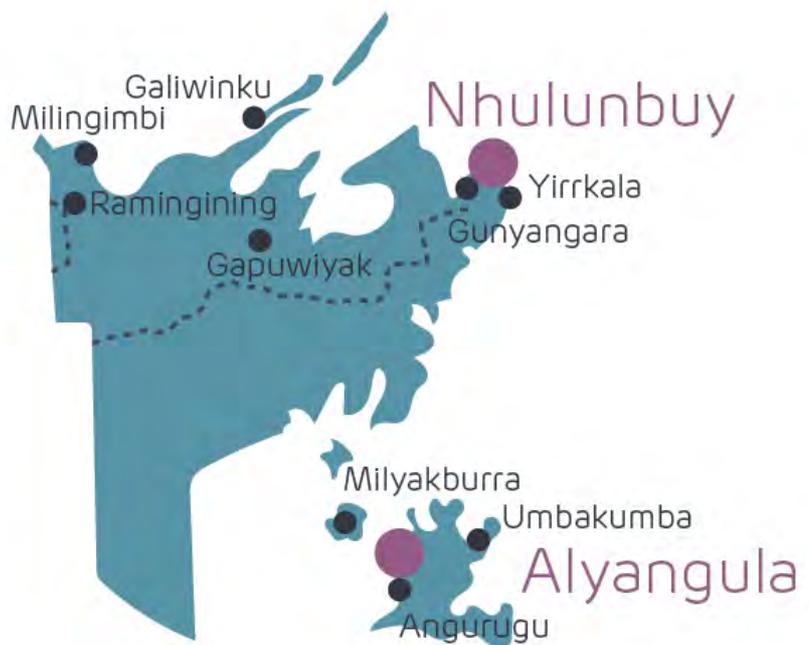

- 15 jobs created with 30% Aboriginal employment during second package of works
- 6 tonnes of local Stringybark, from Gumatj Corporation saw mill, was used to build the new toilet facilities and shade structure

A STRONG FUTURE FOR JABIRU AND KAKADU

The Northern Territory Government is committed to a strong and sustainable future for Jabiru and is investing \$135.5 million to help it transition from a mining town to a vibrant and sustainable tourism hub and service centre for Kakadu National Park and the West Arnhem region.

- Maintain essential services to infrastructure, such as local roads, electricity, water and sewerage
- Construct a Bininj Resource Centre to support Aboriginal education and cultural preservation
- Construct new power generation infrastructure for Jabiru
- Guarantee government services at current levels for five years (education, health, police and fire and emergency services)

The Commonwealth is investing a further \$216 million to upgrade Kakadu National Park which will include tourism infrastructure, including roads and park facility upgrades.

JABIRU HEALTH CENTRE

The Northern Territory Government is constructing the new Jabiru Health Centre, as the previous one was no longer fit for purpose and was operating at above optimal capacity. The project has now reached the 70% completion mark and is due for final completion in Q2 2024.

The Jabiru Health Centre Includes:

- A single storey New Health Centre, inclusive of a 4 bed Renal Dialysis Unit
- stand-alone Morgue building
- stand-alone Toilet Block

The building will comprise concrete footings and slabs, load bearing blockwork walls and steel truss roof framing supporting a steel clad roof.

PROJECT TIMELINE

QUICK STATS

Social and economic value of Kakadu National Park

- Deloitte found that the Park supports over 1,180 jobs and contributes \$136 million to the Australian economy each year

Construction Works (Health Centre):

- All work on-site including the building works are anticipated to be completed by Q2 2024
- Red Lily are in discussion with NT Health in retaining the old health centre and re-purpose its use.
- Site detention basin had been developed early and is working as intended.

MANDORAH MARINE INFRASTRUCTURE

The Territory Government is delivering new marine facilities for residents and visitors to Mandorah, Wagait Beach and Belyuen.

A design and construct contract has been awarded to Australian owned marine infrastructure specialist SMC Marine.

Key elements of the project to be constructed in the current scope include:

- a safe harbour formed by two breakwaters – a large northern breakwater and a smaller southern breakwater
- dredging to create an access channel, turning basin and berthing area for the ferry
- a new floating pontoon, gangway, jetty structure and causeway to enable access to the ferry from land. These facilities will include an engineered solution to ensure mobility impaired user access to the ferry. A design for this solution will be finalised in the design stage
- the re-purposing of an existing building on the site to function as a new shade and toilet structure for ferry passengers
- a new carpark, connecting road, pedestrian paths, and minor modifications to the existing carpark to improve access and trailer parking.

An early works contract to prepare the site and the existing building was awarded to local company Quality Constructions and Maintenance and was completed in August 2023.

Early geotechnical investigations have been undertaken at the Mandorah Marine Facilities site to inform the design and construction program.

PROJECT TIMELINE

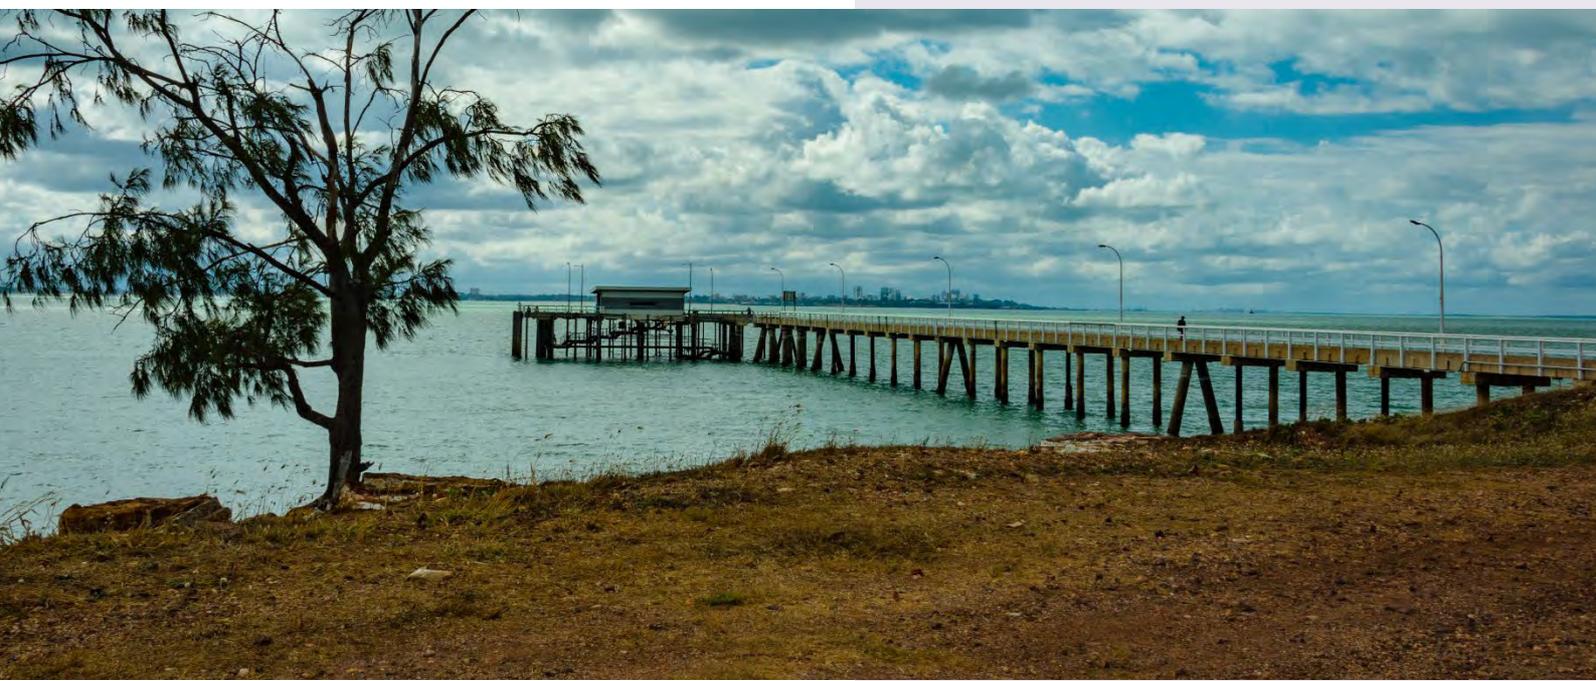

● Complete ● In progress ● Not started

- Masterplan for Mandorah's new marine facilities, released Q4 2020
- Stage 1 design and construct tender issued Q4 2021
- NT EPA assessment report completed
- Early works were completed in August 2023
- Design and construct tender closed Q2 2023
- Design and construct tender award Q4 2023
- Development Consent Authority (DCA) application
- Design phase anticipated completion Q2/3 2024
- Construction phase anticipated completion Q3 2025

QUICK STATS

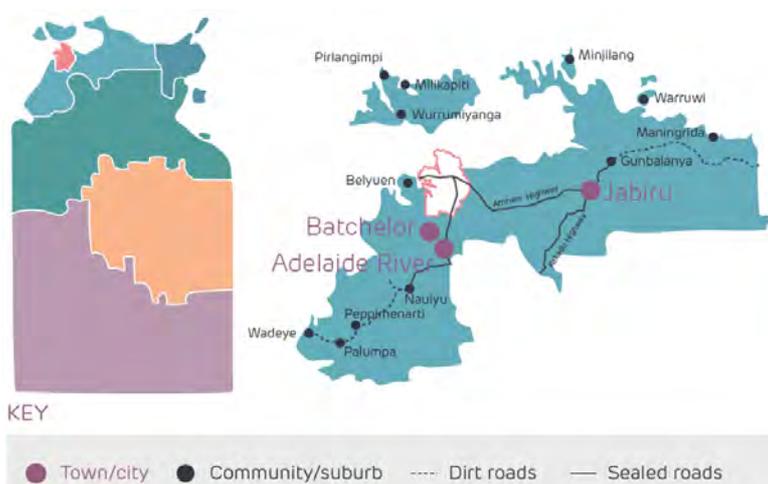

Stakeholder Engagement:

- 6 Indigenous residents of Belyuen were subcontracted to Quality Constructions and Maintenance through the Belyuen Community Government Council as part of the early works contract.
- Belyuen Council's plant and equipment was also hired by the contractor to complete the works.

Spotlight

RICHARDSON PARK

The revitalisation of Richardson Park is almost complete with foundation works finished and civil components now over 90% complete. The Northern Territory Government is revitalising the park and building a new road access into Ludmilla Primary School, while preserving the sporting significance of the site.

The redevelopment includes:

- a road extension of Richardson Drive to the Ludmilla School boundary, improving accessibility to the school and overall safety for parents and students
- significant earthworks and drainage infrastructure to provide a new and improved field and new grassed areas for recreation
- new trees to provide shaded areas throughout the site to compliment the native vegetation of the adjacent “bush block” maintained by the Ludmilla Creek Landcare Group
- a public ablution facility, change rooms and equipment storage to support user groups
- community infrastructure, including exercise and playground equipment, undercover areas and BBQ facilities
- a well-lit shared path network with CCTV to maximise activation of the site, reduce anti-social behaviour and provide connectivity with Ludmilla School
- all necessary services including electrical, water, sewer and telecommunications, and
- historical acknowledgement of the long history Rugby League has with Richardson Park, including Warren ‘Shadow’ Mount.

Significant remediation works have been undertaken, including containment of asbestos contamination.

PROJECT TIMELINE

● Complete ● In progress ● Not started

- Removal and demolition works completed Q3 2021
- Tender Released Q4 2021
- Redevelopment construction commenced Q1 2022
- Removal and demolition works completed Q3 2022
- Construction reached 40% completion and asbestos remediation works commenced Q3 2022
- Construction reached 90% completion in Q4 2023 including the main playing field surface
- Asbestos remediation and redevelopment works anticipated to be complete Q1 2024
- Tender for the building works (ablutions block, change rooms, storage areas) released Q1 2024

QUICK STATS

Construction Works:

- All work on-site including the building works are anticipated to be completed by Q2 2024
- The memorial for Warren “Shadow” Mount has been reinstated to an appropriate location acknowledging the significance of the site
- Tree planting is 100% complete with a total of 106 shade trees planted across the site.

FRANCES BAY MOORING BASIN LOCK

On site works are continuing as part of the Frances Bay Mooring Basin lock upgrade project.

Northern Territory contractor Advance Civil Engineering Pty Ltd is delivering the Territory Government's \$18.5 million upgrade of the Frances Bay Mooring Basin lock.

The upgrade will:

- deliver new lock doors
- modernise the mechanical and electrical systems
- extend the life of the asset to ensure the long term sustainability, efficiency and safety of the facility and the industries that use the facility.

The new lock gates were installed in the lock as a major milestone for the project.

Recent lock closures enabled the contractor to:

- install a new emergency and sea side cofferdam gate/drop in wall
- replace the lock gates (see image below)
- overhaul the mechanical components
- excavate and remove the tie rods.

The tie rods were substituted with innovative stabilised soil blocks and a new capping beam to stabilise the lock walls.

The piling works within the mooring basin are now complete and the project is expected to be completed early in Q2 2024.

PROJECT TIMELINE

● Complete ● In progress ● Not started

- Funding announced by Northern Territory Government, March 2021
- Design and construct tender to upgrade the Frances Bay Mooring Basin lock, released in late 2021
- Design and construct tender awarded June 2022
- Design is complete
- Major closures 1 and 2 were complete Q4 2023
- Off-site fabrication of lock components commenced December 2022
- New lock gates successfully installed Q4 2023
- Regular meetings with industry representatives
- Construction work started on site February 2023
- Commissioning and completion Q2 2024

QUICK STATS

Stakeholder Engagement:

- The Darwin Harbour Infrastructure Project team continues to work with the contractor and stakeholders to minimise the impacts on the users of the lock, mooring basin and Fisherman's Wharf as construction works continue, including managing the number and length of time for lock closures.
- Contact Communications and Stakeholder Engagement Manager on 08 8936 5668 or DHIP.DIPL@nt.gov.au

Construction Works:

- Upgrade works will address concerns about the lock conditions and are expected to extend the life of the lock by a minimum of 30 years.

TIGER BRENNAN DRIVE OVERPASS

The Northern Territory Government in partnership with the Australian Government is constructing a new overpass at the Tiger Brennan Drive and Berrimah Road intersection.

The project is being jointly delivered to improve road safety outcomes at this intersection.

Local business Sitzler has been awarded stage two of the contract for \$127.8 million (\$140.6 million inc GST) to complete the detailed design and construction of the project which will be delivered over the next two years.

The construction of the new overpass will separate the major flow of traffic on Tiger Brennan Drive from the traffic movements on Berrimah Road.

Prioritising safety and connectivity, the project includes:

- a grade separation that will see Berrimah Road passing over Tiger Brennan Drive
- realignment of Tiger Brennan Drive to become free flowing
- entry and exit ramps connecting Tiger Brennan Drive and Berrimah Road
- improvements to Berrimah Road catering to requirements for road trains
- earthworks, drainage works, pavement construction and asphalt works
- street lighting, line marking and road safety barriers
- traffic signals on Berrimah Road only, and
- improved pedestrian and cyclist accessibility, landscaping and urban design.

Works will be undertaken in a staged manner with consideration given to minimise impact for all road users.

PROJECT TIMELINE

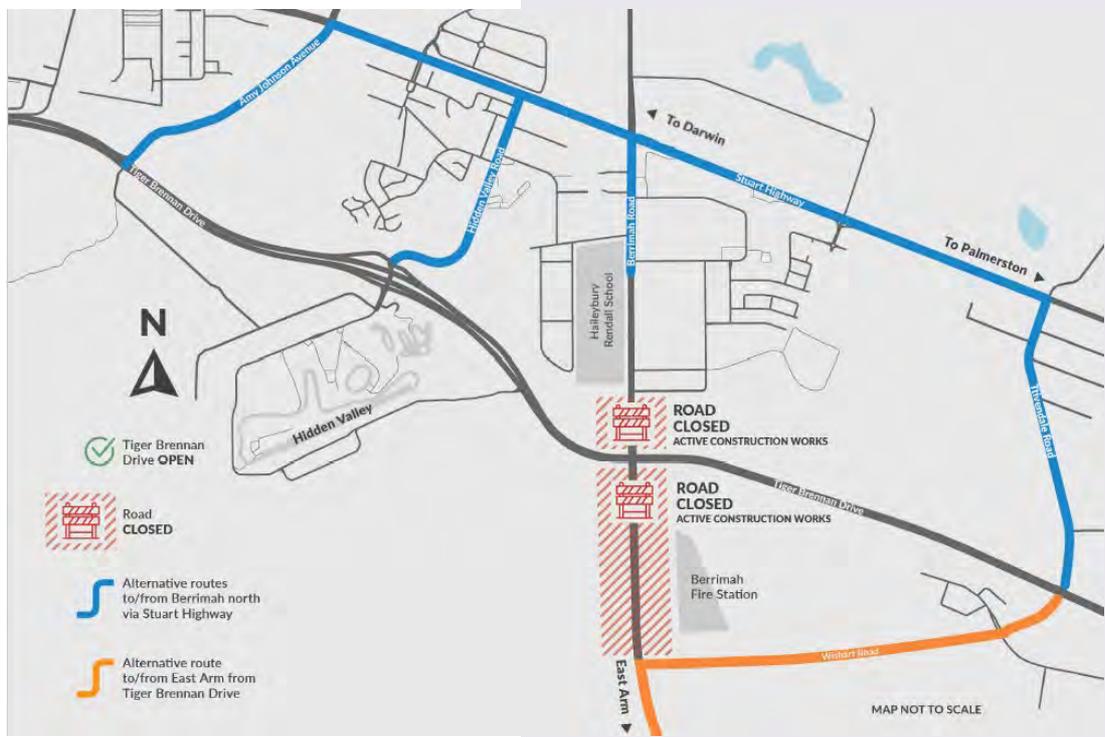

● Complete ● In progress ● Not started

- Establish site office compound completed Q3 2021
- Overpass at Tiger Brennan Drive (TBD) and Berrimah Road intersection, awarded to Sitzler Q3 2021
- Stage One – preliminary design and construction planning completed Q3 2022
- Stage Two - detailed design and construction of the works commenced Q3 2022
- Phase 1 works – construct new TBD alignment, connect to existing and open to traffic expected Q2 2024
- Phase 2 – construction of TBD on and off ramps and new bridge. Open to traffic expected Q2 2024
- Phase 3 – Berrimah Road south works complete and open to traffic expected Q4 2024

QUICK STATS

Construction Works:

- Bulk earthworks commenced in October 2022 and Stage 1 98% complete at end of September 2023
- Major cross-drainage works completed in Q3 2023 with street lighting and pavement works to follow in Q3 2023
- Pavement construction commenced with first asphalt laid
- Bridge girders are being installed with completion due in Q1 2024
- Upgrade works to provide increased capacity of the Tiger Brennan Drive and Wishart Road intersection, completed in Q4 2023
- Berrimah Road now also closed on the south side of TBD with ground treatment and earthworks commenced in Q1 2024

CIVIC AND STATE SQUARE REVITALISATION

The Civic and State Square Revitalisation project is progressing with works continuing on the Northern Territory Art Gallery and Liberty Square projects.

The revitalisation is part of the Northern Territory Government's historic Darwin City Deal, delivered in partnership with the Australian Government and the City of Darwin.

Local company Sitzler was awarded an \$88 million contract to construct the Northern Territory Art Gallery, as well as plan and design the remaining elements of the Civic and State Square Precinct.

The Northern Territory Art Gallery is a key component of the Precinct. It will be a key feature with an iconic design that respects the civic setting of the Supreme Court and Parliament House while enlivening the Civic and State Square Precinct. By integrating architecture, art and landscape the art gallery will contribute to a distinct sense of place in a redeveloped Precinct.

The Art Gallery will feature four large galleries with high ceilings, a spacious foyer, and a dedicated program space for hands-on workshops providing exciting and interactive experiences that welcome everyone to connect with art, creativity, new ideas, and each other.

Despite delays due to latent site conditions and unexpected historical finds, the building's basement construction is nearing completion and in early 2024 a 35 metre high tower crane will start lifting pre-cast concrete wall panels forming the building's main structure. The crane will remain in place until the main gallery structure is built. Construction is anticipated to be completed Q4 2025, followed by a period of approximately six months to build and install exhibitions before the Gallery opens to the public.

Image courtesy of Sitzler

PROJECT TIMELINE

QUICK STATS

Construction works:

The Northern Territory Art Gallery features a number of ESD features to minimise the carbon footprint of the building. Low carbon (green) concrete is being used throughout the building, which replaces a proportion of cement with recycled waste materials, thereby reducing the embodied carbon and environmental impact of the concrete.

The contractor has completed a number of large concrete pours, two of which were completed after-hours. The project will require about 15 additional concrete pours to occur after-hours over the next 12 months. The pours are planned early in the morning or late evening as low ambient temperatures are required for the concrete to set.

SHIERS STREET HOUSING REDEVELOPMENT

The Northern Territory Government is redeveloping the public housing complex on Shiers Street in The Narrows in partnership with the community housing sector.

The NTG has invested \$14 million to start the process of transforming this legacy site into a modern, fit for purpose precinct with a mix of social and affordable housing.

The new housing will be designed to promote liveability in tropical climatic conditions, improve the look and features of the neighbourhood and make living in the area more enjoyable for tenants and residents.

Construction of the new housing is not part of the current phase of works.

It is proposed that Shiers Street will be redeveloped through a two-staged process. The second stage of the process will include identifying a Community Housing Provider (CHP), or consortium who will undertake construction and manage the housing on site.

Redeveloping Shiers Street in partnership with the community housing sector was identified as a commitment under the [Northern Territory Community Housing Growth Strategy 2022-32](#) launched in April 2022. Read more about the Community Housing Growth Strategy on the Territory Families, Housing and Community [website](#).

The project will build upon the ongoing transition of management of social and affordable housing from the NTG to registered CHPs. This aligns the Territory with best practice housing approaches from other Australian and international jurisdictions.

PROJECT TIMELINE

- Complete ● In progress ● Not started
- Residents at Shiers Street have been progressively transferred to alternative public housing accommodation since 2021
 - Northern Territory Community Housing Growth Strategy 2022-32 launched in April 2022
 - \$14 million allocated to demolish the complex in the 2023-24 NT Budget
 - Contract to demolish the 76 unit complex awarded to local contractor NTEX Pty Ltd on 20 July 2023
 - Expression of Interest for Shiers Street redevelopment closed 15 November 2023
 - Building demolished in December 2023 with land remediation expected completion by June 2024
 - Stage 2 detailed proposals and negotiations expected 2024. Design and planning expected 2025, construction commencement expected 2026

BENEFITS

The benefits of social and affordable housing managed by CHPs includes:

- access to revenue not available to the NTG, such as Commonwealth Rent Assistance and low cost finance
- improved tenancy and asset management – required by rigorous key performance indicators under the National Regulatory Scheme for Community Housing
- more tailored supports for people with complex needs or experiencing major life events
- leveraging options which allow providers to grow their portfolios while increasing the number of available, social and affordable dwellings.

DARWIN SHIP LIFT

The Northern Territory Government is delivering the Darwin Ship Lift Facility to establish Darwin as a thriving maritime services industry hub.

The ship lift will be capable of lifting vessels up to 5500 tonnes and will enable larger vessels in the defence, energy, pearling, fishing and coastal cruising industries to be serviced in Darwin.

Clough BMD Joint Venture (CBJV) was awarded the construction contract in September 2023 to build the ship lift facility at the East Arm site.

The NT and Federal environment approvals are now in hand and the Development Application has been submitted for the Darwin Ship Lift Facility.

The contractor has been establishing its site and construction plans site survey and set out, fencing, environmental controls for construction approvals, potholing existing utilities and establish the initial site office.

CBJV have been undertaking procurement for supply and services including dredging, quarried material and steel supply as well as the main electrical package, pre-cast concrete, labour hire, local transport and steel fabrication.

The Darwin Harbour Infrastructure Project team is continuing to progress the project by:

- finalising the ship lift design in consultation with Defence, industry and the operator
- continuing the Defence Qualification processes for the facility.

PROJECT TIMELINE

QUICK STATS

- 250 workers will be employed on the project, with an average of 100 workers on-site generally
- The ship lift is 26 metres wide, 103 metres long and will be capable of lifting vessels of up to 5,500 tonnes.

Concept for Logistics Hubs – proposed network of hubs

Spotlight

LOGISTICS HUBS

The Network of Regional Logistics Hubs (RLH) is underpinned by a \$440 million equity contribution by the Australian Government, which will strategically position the NT to meet increased capacity demands for existing and prospective projects.

The estimated total investment benefit across several proposed projects in mining, minerals, agribusiness and energy industries across the NT is over \$38 billion. This investment is expected to support an estimated 6,000+ construction jobs.

Much of the investment and employment increase will occur in remote and very remote regions with higher proportions of First Nations people. Improving rail efficiency and the capacity of different freight modes will reduce the predominance of trucks being used to transport freight over long distances in the Territory. This will improve the environmental and social impact while reducing the carbon intensity of transport.

Development of the Regional Logistics Hubs will capitalise on the Territory's access to Asian markets, renewable energies and rich resources supporting sustainable economic development. The development is also expected to generate long-term employment opportunities, supply chain resilience and contribute to the growth of the population and economy in northern Australia.

STRATEGIC PLANNING

The mapping of strategic hubs, locations, infrastructure capacity and requirements continues to be reviewed including:

- Rail spurs, sidings and passing loops
- Laydown areas
- Bulk storage and warehousing
- Road impacts
- Connectivity and interface with Darwin Port, and
- Other enabling infrastructure

DARWIN REGION WATER SUPPLY

The Darwin Region Water Supply Program (the Program) is a sustainable, long term infrastructure solution that will deliver safe and secure drinking water for Territorians, as well as enable economic growth and job creation through irrigated agriculture and industry expansion.

The Program will be delivered in two stages to supply 67.3 gigalitres (GL) of additional water each year to the Darwin region:

- **Stage 1:** Returning Manton Dam to service as an additional water source to boost our short term water supply by 2026. Stage 1 also includes construction of a new water treatment plant at Strauss and the planning and approvals phase for the Adelaide Off-stream Water Storage (AROWS) Project.
- **Stage 2:** Constructing and commissioning AROWS to secure a long-term water supply within the next 7 to 10 years (pending regulatory approvals and future investment decision).

The NT Government recently awarded a \$6 million contract to Australian and local company SMEC Australia to deliver the concept design for the AROWS project.

SMEC is an accomplished company that brings strong experience, capability and highly specialised skills to deliver this critical component of Stage 1 of the Program. The concept design is expected to take approximately 12 to 18 months to complete.

Following significant environmental assessment work and engagement with stakeholders and the community, Power and Water Corporation completed its environmental referral for the Manton Dam return to service project and submitted it to the NT EPA for assessment. The NT EPA has now determined that with appropriate management the project does not have the potential to have a significant impact on the environment and may proceed. The tender award for the design and construction of the Manton Dam Return to Service project and the Strauss Water Treatment Plant is expected in the first half of 2024 with early works commencing shortly after.

The NT Government engaged GHD Pty Ltd in April 2023 to undertake an environmental assessment for AROWS. In consideration of the NT EPA guidelines and levels of environmental assessment, the NT Government is proposing to undertake the highest level of assessment for AROWS, that being a Tier 3 Proponent Initiated Environmental Impact Assessment (EIA).

Stage 1 of the Program is jointly funded by the Australian Government's National Water Grid Authority (\$300.6 million) and the Northern Territory Government (over \$26 million).

PROJECT TIMELINE

● Complete ● In progress ● Not started

- AROWS preliminary assessment, Q1 2021
- Completion of the AROWS Detailed Business Case, Q1 2022
- Darwin region water supply infrastructure upgrades added to the Infrastructure Australia Priority List as an investment ready project, Q1 2022
- 2022 Federal Government Budget announced \$300.6 million for stage 1, including returning Manton Dam to service and planning and approvals for AROWS
- Community Reference Group established
- Lead environmental consultant appointed
- AROWS concept design tender awarded, Q4 2023
- Environmental Impact Statement for AROWS
- Concept design for AROWS
- The design and construct tender for the Manton Dam Return to Service Project expected to be announced by early 2024.
- Continue stakeholder engagement and community consultation
- AROWS Environmental Referral submitted to the environmental regulator and made available for public comment
- Manton Dam return to service, expected completion 2026
- AROWS construction, expected to commence 2026 (subject to regulatory approvals and future investment decision)

QUICK STATS

The project is expected to:

- Include 100 kilometres of up to 1.6 metre diameter pipes
- Be Australia's largest off-stream storage
- Double the Darwin regions water supply

Community members can contact the NT Government Project Team by email on

HOLTZE LAND RELEASE

The Northern Territory Government is supporting growth in the Greater Darwin Region through providing \$44 million in Budget 2022 for the design and construction of enabling infrastructure for Holtze land release over three years, including sewer and water networks, power augmentation and stormwater management.

In mid-2022, the Minister for Infrastructure, Planning and Logistics included the Holtze to Elizabeth River Sub-regional Land Use Plan (HESLUP) into the NT Planning Scheme.

Following completion of the HESLUP, the NT Planning Commission is continuing to work on planning for Holtze and Kowandi through the preparation of the Greater Holtze Area Plan (GHAP). The draft GHAP is being updated in response to feedback from consultation.

Land in Holtze was released through a public competitive Request for Proposals (RFP) process on 22 November 2022 to provide additional supply of entry level titled lots in Greater Darwin by the end of 2024.

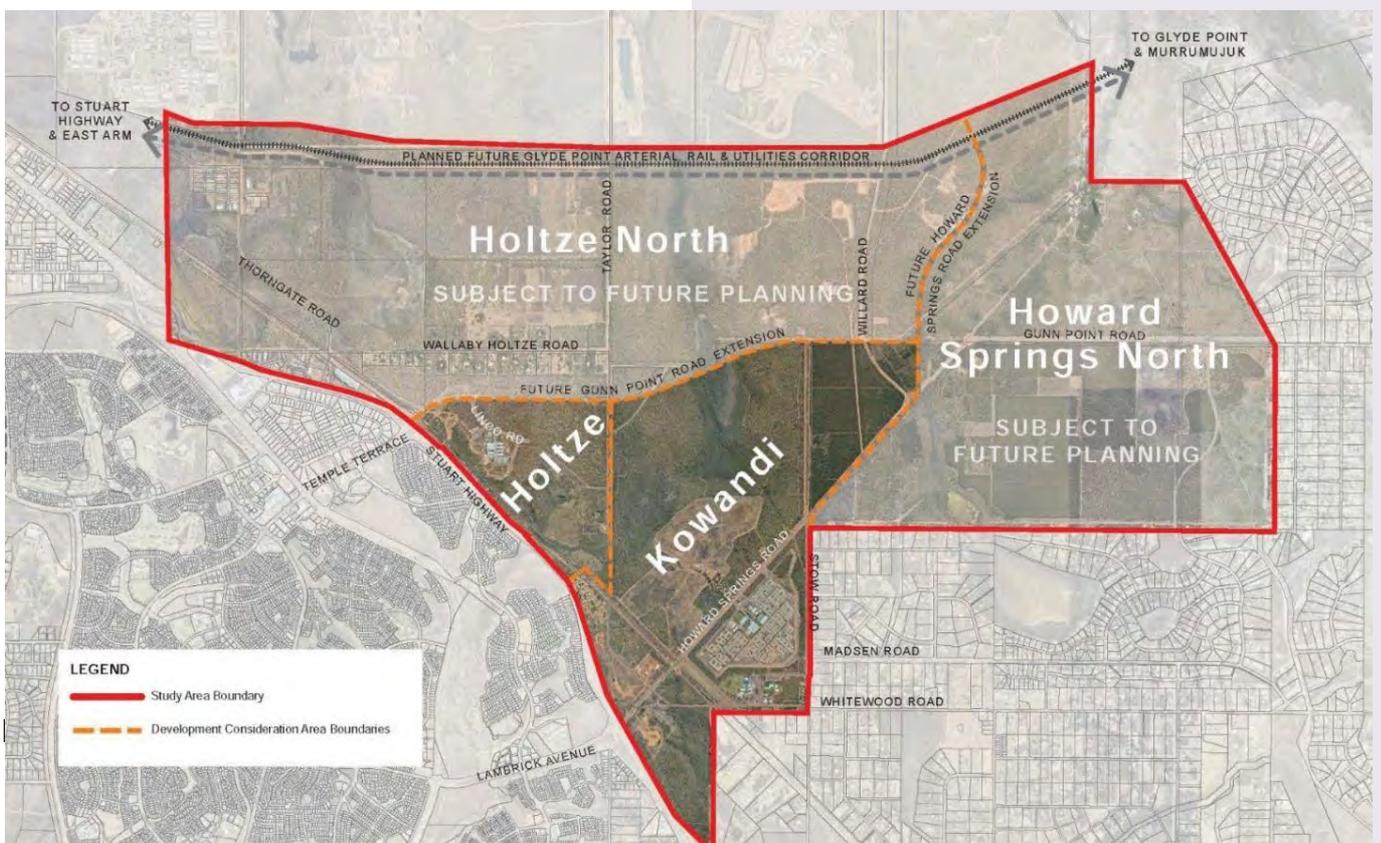

Registrations were invited from proponents interested in the opportunity to develop an urban, entry level residential subdivision on approximately 46.5 hectares of Crown land, via a single stage RFP process. Submissions closed 10 March 2023 and are in the assessment phase.

PROJECT TIMELINE

QUICK STATS

The NTG is providing development opportunities through land releases across the Territory. Read [here](#)

MIDDLE ARM SUSTAINABLE DEVELOPMENT PRECINCT

The Northern Territory Government is working to transform Middle Arm into a sustainable 'development ready' precinct. Sustainable outcomes and environmental protection of Darwin Harbour and surrounds are at the core of planning for the Middle Arm Sustainable Development Precinct.

The precinct provides approximately 1500 hectares of industrial land and supports the delivery of a \$40 billion economy by 2030, while meeting commitments to net zero emissions by 2050. The essential elements and opportunities of a sustainable development precinct as it relates to Middle Arm include:

- maximising renewable energy use
- maximising economic outcomes while minimising environmental and social impacts
- efficient water use including reuse where possible
- circular economy principles including reusing waste streams (such as using waste as a feedstock) and carbon capture
- efficient use of infrastructure.

Engagement with the traditional owners of Middle Arm is key to establishing an appropriate cultural heritage management framework and in turn, supporting positive long-term cultural outcomes. A cultural consultative committee has been established with the objective of delivering a Larrakia-led cultural values survey for the precinct.

Preserving Darwin's environmental values, including the Darwin Harbour, is a critical goal to meeting the sustainable objectives of the Precinct.

The Strategic Environmental Assessment is undergoing adequacy review, with formal submission to Northern Territory and Commonwealth regulators anticipated for Q4 2024. Public comment will be invited following submission.

PROJECT TIMELINE

● Complete ● In progress ● Not started

- Common user infrastructure at the Middle Arm Precinct added to the Infrastructure Australia Priority List, Q1 2022
- 2022 Federal Government Budget committed \$1.5 billion equity contribution to Middle Arm
- Consider potential investment options (Stage 2 of Infrastructure Australia's Assessment Framework – business case)
- Conceptual planning of infrastructure for Strategic Environmental Assessment, Q2 2023
- Submission of the Strategic Environmental Assessment for adequacy review, Q4 2023
- Finalisation of the Business Case (Stage 3 of Infrastructure Australia's Assessment Framework), anticipating submission Q1 2024
- Initial design of infrastructure, Q3 2024
- Submission of the Strategic Environmental Assessment and public exhibition commences, Q4 2024
- Finalisation of procurement of activation infrastructure, 2025
- Environmental approval decision 2025
- Construction of infrastructure commence 2026 (subject to approvals)

QUICK STATS

Stakeholder Engagement:

- Interested stakeholders can email: Contact.MASDP@nt.gov.au to register their interest in the community engagement process.
- The Department of Infrastructure, Planning and Logistics is leading the planning, design and approvals process.
